OPERATION NEW HOPE

"Marco has hired two employees through Operation New Hope in the last year. Brandon Henry has recently surpassed a year with us and Richard Henley is coming up on six months. We are so pleased with the performance of both Gentlemen. Together they successfully complete a wide range of warehouse tasks. As far as their work ethic and attitude; anyone at Marco will tell you that they are terrific. Enthusiastic, reliable, conscientious, pleasant to work with - what company wouldn't want these folks on their payroll???

I can't speak highly enough about the work that is being accomplished at Operation New Hope. The staff has been wonderful to work with and the dedication that they have to the overall mission is admirable. Keep up the important work!"
